

Same Page Meeting

A quick message to all business partners and anyone that has a visionary/integrator relationship.

If you don't feel 100 percent on the same page with your partner, visionary or integrator we highly recommend a monthly same page meeting.

It is extremely effective for helping you air out issues, build and strengthen your relationship, and keep you in sync. That then leads to you presenting a united front at the presence of your people, along with a consistent message that eliminates organizational confusion and complexity.

It is a two-hour meeting you should pre-schedule every month. Bring all of your issues, concerns, ideas, and disconnects; then identify, discuss and solve (IDS) them.

The agenda is simple:

- Check-in
- Build the Issues List
- IDS

Try it, it works. Schedule your first one right now.
