LTM PAGES AND DIAGRAMS

TEACHING AND FACILITATION

3 Uniques

- 3 Uniques are your value proposition, your differentiators
 - Three things that make you different and better in the mind of your target market
 - Line yourself up against all of your competitors. You may all do one, some may do two, but you are the only one that does all three.
 - Combination makes you Unique
- Examples
 - EOS – VTH
 - Southwest Airlines – 3 LFs (low fares, lots of flights, and lots of fun)
- Why would your five best customers choose you?
- Nuggets if needed: Don't try and be all things to all people
 - Story - "If you try to please everyone, you will lose your ass"
 - The Southwest Airlines Story

EXERCISE – Defining Your 3 Uniques

Each person takes five quiet minutes to write down all possible uniques.

- Have everyone share their responses
 - Write all on whiteboard as they say them
- Keep, kill, and combine to arrive at three valuable differentiating uniques (occasionally four)

- Write on whiteboard under 3 Uniques **(D6)**
- Update the V/TO
- Questions, comments or concerns?

Objective today is to decide YES/NO – do you see value in having one?

- It does two things for your potential customer
 - Gives peace of mind and increases confidence that they are in good hands
 - Differentiates you because most of your competitors don't have one
- Typically, 3 to 7 steps mapping out the experience from 1st meeting to years of ongoing follow up
 - 1-page, full color
 - Illustration of steps
 - Bullet talking points with each step
 - Give it a name – “The__Process”
 - Design it, print it, and laminate it
- Sales Presentation Consistency
 - Show examples
- Not all of our clients have one
- Does everyone understand what a Proven Process is?
- Do you see value in having one?
 - If YES, leave on V/TO and leave on board

- You found your Target Market customer, presented your 3 Uniques and shown them your Proven Process, now it's time to make a buying decision
 - Offer a guarantee that makes it easier to say yes
 - Takes their biggest fear or obstacle off the table
 - Ideal is a guarantee backed up with teeth
- Some clients water it down by calling it a pledge, promise or commitment but it absolutely still works.
- Not all companies have one
- Examples
 - EOSWW Session Guarantee
 - Hospitals 29 minutes

 - Description of your role in the organization at that time
- As Implementers, we need to impart our will on two things:
 - 1st Bullet in 3-Year Picture = “ RPRS” (right people right seat)
 - Core Processes documented, simplified and FBA
- One at a time, write each person’s bullets on the board (w/o discussion)
- Now debate, discuss, refine the bullets
 - Go through each bullet, one at a time

- Once we have 3-7 goals for the year, you then conclude by asking them a long streaming question.
 - If we are sitting here on Dec. 31, 20xx, with this revenue and this profit, with this/these measurable(s) and we have achieved goal #1 _____, goal #2 _____, etc., was that a great year in the life of this company?

OBJECTIVE

LTM PAGES AND DIAGRAMS

Breaking the 1-Year Plan down into 90-day chunks / creating our 90-day world

Follow pure Rock setting from Focus Day video

Looking at your 1-Year Plan and your Issues List pour out onto paper what you believe the 3-7 most important things are that **MUST** get done in the next 90 days?

- Record all proposed company rocks on the board
- Impart your will as an EOS Implementer® on two Rock ideas:
 - Solving RPRS issues
 - Roll-out (Discuss roll-out of five Foundational Tools, don't push for more than they are ready)

- Typically teach the four Foundational Tools one tier at a time, to your next tier, then the next, etc.
- You decide which ones you're ready to roll out:
 - V/TO – everyone shares the vision
 - Unveil to everyone – Core Values, speech
- Accountability Chart
 - Everyone understands everyone's role (all RPRS)
 - Unveil to everyone
- Rocks – everyone going forward should be setting and achieving rocks, but closer to only 1, 2 or 3

[illegible]

TEACHING AND FACILITATION

- Meeting Pulse – At every level of organization
 - Sales team meeting pulse, Ops team meeting pulse
 - Department meetings don't have to be 90 minutes, but 50% of the time needs to be spent on IDS
- Scorecard – departmental Scorecard for each department
 - Everyone has at least one number to deliver so they know what's expected
 - Fully master in each department (understanding & implementation)
- Look at potential Company Rocks, keep, Kill or Combine to reduce to top 3-7 Rock candidates
Do not decide or make them S.M.A.R.T. yet
- Pick the future date (**LTM 19**)
 - Are we still going forward together? Schedule date of next session which will also be due date for Rocks (measurable(s) are tied to quarter)
 - This will also be the date of your first Quarterly Meeting
 - In your 1st Quarterly, we're finally going to tackle some of these issues and pull it all together for you, take you back to the big picture and the Toolbox and we're going to tackle some of the tools
- Help them set Revenue, Profit & Measurables
- Company Rocks, set 3-7 (hopefully closer to 3)
 - Discuss, debate, refine; obtain agreement
 - Make S.M.A.R.T.
 - Assign ownership

INDIVIDUAL ROCKS – Take five quiet minutes to think of all possibilities (**LTM 20**)

Have each individual share Rocks
