

IMPLEMENTER GUIDE SCORECARD

TOOLBOX

INTRODUCTION TO THE TOOL

INTRODUCTION

Taught during a Focus Day™. Objectives are to:

1. Sell them on the value of a Scorecard
2. Take a first cut at identifying Scorecard measurables, goals and owners
3. Create the Scorecard they'll use in their Level 10 Meetings™

PREPARATION/MATERIALS

- Watch the Scorecard video.
- Review this guide (or the Focus Day guide) and bring it to the session.

TIME

1 hour

LEADERSHIP TEAM MANUAL (LTM) PAGES

Focus Day, pages 12-16

CONTEXT AND TEACHING

Scorecard (LTM 13)

- Often called dashboards, flash reports, metrics, pulse report, key performance indicators (KPIs) and 1,000 other words.
- There are 2 realities when we teach Scorecard:
 - Reality # 1 – most of the time people get it, they understand it and they love it.
 - Reality #2 – they say their Scorecard isn't working, but after further digging, it turns out they aren't working.
- Drive home the seven truths, make sure they believe them.
- Teach them the six fundamentals, make sure they clearly understand them.

DIAGRAMS

FACILITATE

EXERCISE – Creating our Scorecard (LTM 14)

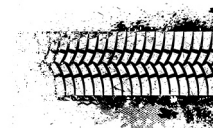

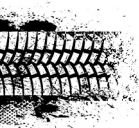

- You're on an island; can't communicate with any of your team
 - The cabana boy or girl, whichever you prefer, brings you a sheet of paper with numbers on it. Those numbers tell you exactly how the business is doing.
 - What would those numbers be for your business?
- Take five minutes to have everyone write down the numbers they think must be on the Scorecard
- Have the team review examples of measurables to help their thought process. (LTM 15)
- Create the Scorecard by:
 - Compile the list (30 #s on average) on board – left around table
 - Turn to Company Scorecard Page (LTM 17)
 - Assign the Scorecard Creator to build / populate it; client chooses this person
 - Do first round of clean up — weekly activity based #s only (10-20 #s)
 - Set the Goal for each (Gut feel – 30 sec. rule; 20% might not have Goal)
 - Assign Accountability person for each Measurable

DIAGRAMS

- Add several columns to the right and input weekly meeting dates for 13 columns
- Let it evolve into something you'll love over the next 1-3 months
